Record Cleaning Fluid

Amari Record Cleaning Fluid is concentrated solution, made of non-alcoholic ingredients. It environmentally friendly and does not harm the record, ensure your record is as clean and new as possible!

The Amari Record Cleaning Fluid also contains antistatic components. After cleaning, the vinyl record has antistatic effect and has a lubricating effect on the stylus.

Instructions

Shake the bottle well before use. Then use the measuring cup to pour 30ml of Amari Record Cleaning Fluid into 1000ml of distilled water.

The diluted solution can then be used to clean records especially the Amari RW-220 and RW-600 record cleaners.

Cautions

Keep out of reach of children.

Store in a cool place where there is no direct sunshine.
